EXPERIENCE

General Assembly, Remote — *Fellow*

Feb 2023 - Present

StoryBuilt, Austin, TX — *Junior Designer*

Jun 2022 - Jan 2023

StoryBuilt is an Austin based development company specialized in Urban infill projects and during my time there I helped the team produce drawings for two of their projects that consists of 100+ single family houses and multi-family houses, tasks ranged from schematic design drawings to construction detail drawings.

MiroRivera Architects, Austin, TX — *Architectural Designer*

Jan 2022 - Jun 2022

At MRA, the design approach is built on the belief that architecture should engage in a positive dialog with the community, both responding to and re-imagining its context. and the philosophy is rooted in what we call "responsible architecture." It is an approach that responds to the three basic areas of responsibility that we believe architects must address in every project: Architect "Thinker" Architect "Builder" Architect "Artist"

The BECK Group, Austin, TX — *Project Coordinator I*

Jun 2021 - Jan 2022

The BECK Group is originally a commercial building construction company. Which meant a lot of exposure to and communication with the construction and the pre-construction teams. I was exposed to few integrated projects and design charrettes for Residential, Commercial and Worship space projects.

Steve Zagorski Architect, Austin, TX — *Project Designer*

Dec 2020 - Jun 2021

The firm works throughout central Texas and has built a varied body of work ranging from private residences to affordable housing, mixed-use, and urban planning projects. The firm has been featured in several publications, where the work of the office is noted for its understanding of place, its authenticity, and its solutions to design challenges.

AWARDS

2020-2021 Design Excellence Awards UTSOA

Design Excellence is a collaborative process among the Program Directors for Architecture, Interior Design, Landscape Architecture, and Student Affairs.

Reclaiming Modernity - Celebrating Geoffrey Bawa (Editor's Choice)

Emphasizing on the lack of ornamentation and the clarity in function, structural innovation and choice of materials, modernism emerged in the early years of the 20th century in response to the drastic developments in technologies and social circumstances.

EMBT-Miralles Tagliabue, Barcelona, Spain — Intern

Jan 2020 - Jul 2020

During my time at EMBT, I was fortunate enough to alternate between multiple projects and help with a number of international competitions as part of two design teams. My tasks ranged from making collages for new competitions, to developing schematic designs to making renderings and physical models to render flythrough video animations.
